M. P. S. C. Sets Hearing For Railroad Petition

The Michigan Public Service Commission has set the date for a hearing on the petition of the New York Central Railroad Company to discontinue operating the "Beeline" between Bay City and Mackinaw City.

The hearing will get underway next Monday morning, June 19th at 9 a. m. in the court room of the Olsego County Court House.

It will be continued the next day if necessary. It is expected that every community served along the line will have a delegation present to protest the discontinuing of the service.

The "Beeline" will continue to operate daily between Detroit and Bay City, stated E. J. Crowley, division superintendent for New York Central.

The reason for the discontinuing of the "Beeline" is purely economic, according to Crowley. He disclosed that in 1960 the service produced a net loss of \$96,400 to Central. Passenger revenues yielded less than \$35,000 while crew wages alone cost Central about \$50,000.

In addition to the loss of fares, health and welfare payments, fuel for the locomotives, and repairs cost more than an additional \$80,000.

Crowley pointed out that in 1960 the southbound train carried an average of only 10 passengers per day the northbound 12.

In all 13 communities north of Bay City are served by the Beeline.

The Grayling City Police solved one breaking and entering case this week but are now faced with another. The Grayling Golf Club house was broken into on the night of Monday, June 5th.

The screen in the screen door was slashed, a pane of glass removed and the door unlocked. The reverse procedure was used when the thieves left. Six bottles of whiskey, two cases of beer and several cartons of cigarettes were taken. Part of the loot was recovered by the police on Monday.

On Tuesday, the police removed the paragon on Michigan Avenue to their farm. The Kirtland County to enjoy their retirement years. "R. C." as he is known, said he would continue to live in Grayling, there and now and then to help out other ministers in the area.

The big project in their retirement years, however, will be the building of a new home on the farm with a great deal of lumber to come from their own woodlot.

Rev. Puffer was born January 14, 1888 at Spencer, Michigan. He was educated in the public schools of Kalamazoo County and the University of Michigan. He also took the Conference Course of Study. His first pastorate was his home church at Spencer, the Church of Christ. He accepted appointment in the Methodist Church in the summer of 1920.

He was united in marriage to Ethel Meeum on August 25, 1917 and the couple has a son and two daughters. Jack lives in Grayling, their two daughters, Gene and Rewena live in Troy and Marysville respectively.

Rev. Puffer had appointments to the Methodist churches at Mooresburg, Kingsley, Big Rapids, 3rd Ave. and circuit, LeRoy, Buchanan, Dowagiac and to Grayling in March of 1946. While a resident of this community, Rev. Puffer has been a member of the Grayling Kiwanis Club and Lions Club and served two years as chairman of the Crawford County Republican Committee.

He has also served as a delegate to the White House Conference on Education, the World Convocation on Evangelism and General State Conventions of the Detroit Conference of the Detroit Conference. In 1952, he was a Republican candidate for Congress from the Tenth District. In 1954, he was on a mission to Mexico City and in 1955 and 1960 did mission work in Hawaii. He also has served several times as a counselor at church summer camps. He and his wife have taken a group of local boys on an extended fishing trip to Canada last summer.

Since living in Grayling, Michigan Memorial has shown great strides under his stewardship. In the fifteen years of his pastorate, the membership roll has grown from 145 to 560. The annual budget has increased from \$4,000 to approximately \$20,000. In this time, the Women's Society of Christian Service has been organized. The church school, the Mens' Club and Youth Fellowship organized. The church school attendance has risen from 65 to 194 average.

Also during Rev. Puffer's pastorate, the new education building was added to the church, the kitchen remodeled and the chancel remodeled. The annual reports of Michigan Memorial show the church to be in very healthy condition and the departing minister believes it should continue to expand.

His congregation and many others of the community are sad to bid adieu to the Puffers but wish them every happiness in their retirement which they have so well earned and so richly deserve.

Mr. and Mrs. Larry Yoder are pleased to announce the arrival of a baby girl, Patricia Lynn, on June 12th, weighing 7 lbs. 4 1/2 oz. Mr. and Mrs. Robert Yoder and Mrs. Richard Merrill and Thomas E. Raymond, Jr. are her grandparents. Mr. and Mrs. Addison Brown, Grayling and Mr. and Mrs. Leo Royston of Charlotte are great-grandparents.

Mr. and Mrs. Leonard Hartwell of Tecumseh have a son born on June 6th.

Summer Driving Training Sessions Now Underway

Driver Education classes for an enrollment of fifty-seven persons began last Monday at the Grayling High School, with Mr. Don Ferguson of the High School faculty in charge of the program.

Each student must complete 30 hours of classroom study, which will be carried on Monday through Friday from June 12th through June 30th, from 8 o'clock to 10 o'clock each morning. Behind-the-wheel training will be carried on between 10 o'clock and 5 p. m. for the first three weeks, while classroom training is being held.

After June 30th it will start at 8 a. m. and continue through 5 p. m. until each student has completed the 6 hours of driving required, probably lasting into August. Unless there are drop-outs, there will be a final examination on August 2nd.

Mr. Ferguson said that the purpose of the committee is to study and develop ways and means of building up a greater all-season tourist industry for Michigan and to propose legislation which will facilitate more rapid growth.

"Development of our second largest industry," he said, "will help stabilize Michigan's economy, bring about the creation of more employment, more construction and more diversifications of capital investment."

The first meeting being held at Lake Valley will provide an opportunity for committee members to see what can be done to provide all-season attractions for tourists and sportsmen," said Nakula.

Lake Valley's program is an example of development which includes new ski slopes, trout pond and lake fish culture and game bird propagation for shooting preserve operation.

Lake Valley's new multi-purpose lodge now under construction will serve as a summer camp for elementary school age children, as a hunting club in the fall, as a fishing resort camp in the winter and as a fishing resort camp in the spring.

Following the Lake Valley dinner meeting on June 23, the committee will move to the Upper Peninsula for other sessions with resort industry people.

Walter Nakula of Gladwin is chairman of the 9-man interim committee. Other committee members include Representatives Riemer Van Til, Joseph O'Connor, Joseph Mack, John O'Connor, Fred Marshall, Ross Stevenson, Clayton Morrison and Don Vander Werp.

Whitest, Brightest Flame

The American system of commerce provides the "whitest, brightest flame of hope" in the world today. And American businessmen could save the world — but they can't do it with a "big, fat platitude."

That striking little observation was made by President Walter W. Straley of Pacific Telephone Northwest before a joint meeting of the Rotary and Kiwanis clubs of Portland, Oregon. He also specified a trouble at prevents businessmen from exerting the leadership they could. Mr. Straley believes that too many of them are bashful and tongue-tied.

This is a highly rational and well-grounded attitude. A businessman who devotes himself entirely to the task of his own enterprise is only doing half the job. What is needed is an articulate business community at "sell" — not just products and services, but the values and principles that made this country great and wonderful — and that have given more good things to more people than any other system ever devised by man.

Many business leaders have urged that businessmen take a far larger interest in the problems that confront the town, the state, the nation, and the world, and make their influence felt. If business fails to provide leadership, it will have only itself to blame if its standing grows less and less in the eyes of the people at large.

Story of Small Business

New anti-trust business legislation is now proposed Congress. Its proponents say that it is needed to protect the nation's smaller businesses, the implication being that as matters stand now they are being gobbled up by big operations.

But that belief is refuted by President-elect Wagner of the Chamber of Commerce of the United States. In his words of employment, often used as a yardstick by the Federal Trade Commission, the percentage of the work force employed by larger firms has dropped since the

end of World War II.

The story: In 1945 business firms averaged more than 16 employees; by 1956, the last year for which these figures are available, the average had declined to an all time low of less than 14 employees per firm; in 1945, 89.9 per cent of business firms had less than 100 employees; by 1956 this was true of 99.1 per cent of businesses.

It certainly doesn't look as if big business was destroying the small. The evidence lends support to Mr. Wagner's view — that the present anti-trust laws are sufficient to preserve competition, and that what is needed is appropriate enforcement.

THE NEW "12-12" WARRANTIES

The 1961 manufacturers' warranties of "12 months or 12,000 miles" on all makes of new cars is simple evidence of a fact that has become more apparent with each passing year: the last few years that the modern mass-produced automobile has attained its highest degree of reliability in history.

We must bear in mind though that cars are just machines and no machine is perfect - or possibly ever will be. It is because of this reality that the car dealership exists as a service establishment primarily and attempts at "super-market" car selling have never proven successful.

Though some car buyers tend to overlook this fact in thinking it is only the "deal" that matters, the manufacturers do not. That is why to understand the new 12-month warranties you must realize that the word of these agreements makes it clear that it is upon the dealer's "sole judgement" that the manufacturer bases his replacement guarantees.

Commenting on this, a recent issue of a national consumer's magazine of 1,000,000 subscribers, which carries no advertising and does not permit advertising use of its ratings of various manufacturers' products, had this to say:

"Car warranties are so worded as to be expressly DEALER warranties - they obligate the dealer, not the manufacturer, to make good on faults. Inquire among friends and acquaintances in your community, and restrict your car shopping to those dealers which have earned a reputation for fair dealing in making warranty repairs. In other words, buy the dealer as well as the car."

We might add that you have everything in your favor if all your service work is done by the dealer from whom you bought your car.
